

**MOLLOY  
UNIVERSITY**

School of Arts & Sciences  
Department of Mathematics  
and Computer Science

---

### **Computer Science B.A. (Students without PreCalculus)**

The Computer Science B.A. provides students the fundamentals of computer programming and the theoretical knowledge of designing and analyzing algorithms to solve programs. Principal areas of study within this degree include programming languages, artificial intelligence, database systems, operating systems, and machine learning.

#### **Essential Skills:**

Essential skills refer to the knowledge gained from a liberal arts education. They provide a framework to guide students' progress toward their degree, but also prepare students for a broad range of career paths. A recent survey from the Association of American Colleges and Universities (AAC&U) shows employers "strongly agree" that "regardless of a student's field of study" liberal arts skills best prepare students to enter the job market in their career of choice.

1. Critical Thinking:
  - a. Make decisions and solve problems using sound, inclusive reasoning and judgment.
2. Equity & Inclusion
  - a. Demonstrate the awareness, attitude, knowledge, and skills required to equitably engage and include people from different local and global cultures.
  - b. Advocate for inclusion, equitable practices, justice, and empowerment for historically marginalized communities.
3. Information Literacy:
  - a. Gather and analyze information from a diverse set of sources and individuals to fully understand a problem.
  - b. Manipulate information, construct ideas, and use technology to achieve specific goals.
4. Inquiry and Analysis:
  - a. Accurately summarize and interpret information with an awareness of personal biases that may impact outcomes.
  - b. Identify appropriate technology for completing specific tasks.
5. Written and Oral Communication:
  - a. Understand the importance of and demonstrate verbal, written, and non-verbal/body language, abilities.
  - b. Communicate in a clear and organized manner so that others can effectively understand.

#### **Employment Information**

Representative Job Titles Related to this Major Include:

Software Developer, Web Developer, IT Project Manager, Information Security Analyst, Programmer Analyst, Data Scientist, Database Administrators, and many more.

Representative Employers to the Major Include:

CIS graduates can work in most industries including information technology, finance, government, healthcare, insurance, education, manufacturing, and telecommunications.

FIRST YEAR			
Fall Courses		Spring Courses	
FST 1000	1	CSC 2430	3
CSC 1030/CIS 1120	3	MAT 1180	3
