

Registration Dates for January Intersession and Spring 2025

In preparation for the next registration cycle, below is the calendar for early registration, which opens on October 21, 2024. Early registration times are based on the following criteria:

- Graduate and Doctoral student registration is assigned by School and includes upper-level Five Year Education Program students.
- Undergraduate student registration is based on the *total credits* (the sum of earned credits and work-in-progress credits).

Undergraduate and Five-Year Education Program students will be placed in a “reserve” status and must have the reserved courses approved by their advisors to officially be registered and keep reserved seats. Students must promptly have courses approved. Graduate and Doctoral students *do not* need their registration approved.

After October 1st, students may use the link to “When Can I Register?” under My Academics tab in Lion’s Den to verify their registration time.

January & Spring 2025 Registration Times

January registration starts at 6:00a.m. and Spring registration starts at 6:15a.m.

Monday	Tuesday	Wednesday	Thursday	Friday
